Details of the Course:

Unit 1: Foundations of Organizational Behaviour, Diversity and Inclusion

Contact Hours/Teaching Hours: 8

Meaning, nature and importance of organizational behaviour; evolution of organizational behaviour; contributing disciplines; individual behaviour in organizations; building blocks of individual behaviour; individual differences; workforce diversity; inclusive mindset; perception of diversity and inclusion; ableism and inclusion; diversity management; and strategies for creating an inclusive workplace.

Self-Learning Hours = 6

Students shall review workplace cases and reflect on how individual differences, diversity, inclusion, and ableism influence employee experiences and organizational effectiveness.

Team Activity Hours = 3

Group analysis and presentation of a workplace diversity case, followed by recommendations for creating an inclusive organizational environment.

Unit 2: Perception, Decision-Making, Emotions and Personality

Contact Hours/Teaching Hours: 11

Perception: meaning, perceptual process, factors influencing perception, perceptual errors and biases, perception and decision-making, factors affecting decisions, and ethical decision-making.

Affect, emotions and moods; affective events theory; emotional intelligence; workplace stress; application of emotions and moods at the workplace; self and personality; types and theories of personality; personality measurement; organizationally relevant personality traits; and caveats and ethical concerns in personality assessment.

Self-Learning Hours = 6

Students shall identify perceptual biases in workplace situations, undertake a reflective emotional-intelligence exercise, and examine the ethical implications of organizational decisions.

Team Activity Hours = 3

Role-play and group discussion on workplace decision-making involving perceptual bias, emotions, stress, personality differences, and ethical considerations.

Unit 3: Values, Motivation and Workplace Applications

Contact Hours/Teaching Hours: 11

Meaning and importance of values; sources and types of values; values across cultures; person-job fit; person-organization fit; meaning and process of motivation; early and contemporary theories of motivation; job design; job characteristics model; employee involvement and empowerment; organizational strategies for motivating employees; rewards and recognition; organizational justice; and its relationship with employee motivation.

Self-Learning Hours = 6

Students shall compare motivation theories and examine person-job and person-organization fit through suitable workplace examples.

Team Activity Hours = 3

Group-based redesign of a job role using the job characteristics model, supported by suitable motivation, involvement, reward, and organizational-justice practices.

Department of Computer Science and Engineering

B.Tech. Computer Science and Engineering

Unit 4: Learning, Creativity, Psychological Capital and Mindfulness

Contact Hours/Teaching Hours: 7

Meaning and nature of learning; individual learning processes; theories of learning; application of learning theories in organizational settings; meaning and importance of creativity; stages of individual creativity; creativity and problem-solving; factors affecting workplace creativity; psychological capital and its components - hope, efficacy, resilience, and optimism; mindfulness at work; and application of psychological capital and mindfulness for organizational effectiveness.

Self-Learning Hours = 6

Students shall maintain a short learning and reflection diary and practise creativity, psychological-capital, and mindfulness exercises in relation to workplace challenges.

Team Activity Hours = 3

Team-based creativity and problem-solving workshop to develop an innovative response to a workplace problem and reflect on learning and psychological capital.

Unit 5: Knowledge Behaviour, Employee Voice and Silence

Contact Hours/Teaching Hours: 8

Meaning and importance of knowledge sharing; factors affecting knowledge-sharing behaviour; knowledge hiding - meaning and forms; distinction between knowledge hiding and lack of knowledge sharing; individual factors influencing knowledge hiding; integration of knowledge-sharing and knowledge-hiding behaviours; strategies for promoting knowledge sharing; employee voice and silence; individual factors affecting voice and silence; strategic silence; psychological safety; and strategies for creating a safe and supportive workplace.

Self-Learning Hours = 6

Students shall examine cases of knowledge sharing, knowledge hiding, employee voice, and silence and identify their consequences for individuals, teams, and organizations.

Team Activity Hours = 3

Case analysis, debate, and group presentation proposing policies and managerial practices for knowledge sharing, employee voice, and psychological safety.
